**ROCK MILL**  
tile & stone  
[www.rockmillstone.com](http://www.rockmillstone.com)

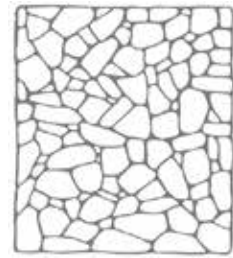

# ABOUT US

Rock Mill Tile & Stone provides unique, high-quality marble and quartzite slabs, French limestone, Italian travertine, terracotta, architectural elements, and reclaimed materials. The company offers a diverse range of customizable sizes, colors, and finishes, catering to both architects and design professionals as well as the luxury retail community. Rock Mill serves as an essential resource for both retail and trade clientele.

Rock Mill also features a full-service fabrication shop, enabling the production of custom stone finishes and precise cuts on-site. Additionally, the company offers Rock Shield, an ecological, no-VOC, high-performance sealant designed to provide long-lasting protection for surfaces.

Rock Mill maintains direct relationships with skilled artisans, quarries, and factories worldwide, which allows for the development of exclusive collections that span from traditional to contemporary styles.

Rockface Layout

Kyan Limestone has a natural look with soft colors and organic patterns that make it visually appealing. Its base tones range from light beige to cream, with subtle pink undertones that create a gentle, neutral color palette. The stone features different textures and includes rustic design elements.
